*The width, depth and height refer to the cabinet (excluding base).

R CABINETS

The ground-level cabinets are pre-drilled for easy installation. The dimensions are ideal for access to contents

Customize each of your cabinets by choosing drawer heights or by adding doors and roll-out shelves

RAILING

The railing complies with 42"H safety standards

FLOOR

The 30"D floor is installed on the first level of cabinets and includes a non-slip mat

STAIRS

The stairs provide easy access to storage on the second level. A second handrail can also be added

5S LABELING

Labeling the contents of your drawers helps to improve the efficiency and productivity of your employees
