OPTIMIZE YOUR SPACE

Rousseau Metal Inc. is a constantly evolving company, and since 1950 we have been creating storage systems to help you efficiently organize and store more items in less space.

A unique solution for your medical center:

Your storage supplies, from surgical kits to scrubs, can all be stored in Rousseau storage systems.

- Sterilization process departments
- Sterile equipment supply departments
- Biomedical departments
- Stockrooms and distribution centers
- Maintenance departments
- And many more...

THIS BROCHURE FEATURES
OUR MOST POPULAR MODELS.

CONTACT US TO FULLY EXPLORE A WORLD OF POSSIBILITIES.

CURRENT SITUATION

- 1 Top and bottom shelves used less and hard to reach
- Poor lighting at the back of shelves
- 3 Visibility of items hampered by shelves blocking field of vision
- Unused space between shelves. Not optimized

RESULT: Items are harder to locate and taking inventory is more difficult.

OUR RECOMMANDATIONS

- More widely spaced shelves for larger items
- 2 Close-set shelves positioned at eye level
- Objects are easy to locate in drawers that open 100%
- Use of space optimized, based on the size of stored items

RESULT : Better organized storage, easy to inventory.

STOCKROOMS AND DISTRIBUTION CENTERS

As your department is responsible for receiving, sorting and distributing medical and surgical equipment and supplies, you need a storage system that frees up as much space as possible. The custom solutions we offer allow you to save space and time while meeting all the department's other needs.

With the Spider® Shelving System, you gain a complete and integrated solution for every size and shape of item you need to store. Modular drawers are the ideal solution for smaller supplies, while shelving and roll-out shelves are the best option for larger items. It's an all-in-one solution for your department!

SMALL AND MEDIUM-SIZED PARTS

To free up space and efficiently organize your parts, drawers in shelving are the perfect solution.

We are storage specialists, and we recommend drawers in shelving for smaller and frequently used items. Rousseau drawers can be installed in over 35 shelving brands available on the market. You can therefore keep your existing installations and still make significant space saving gains.

Are you planning a new installation? Our Spider® shelving system is the most comprehensive and most versatile solution on the market. Thanks to its unique design, it is incredibly easy to assemble and use.

Medium-Sized to Large Parts

Thanks to the unique design of our Spider® Shelving System, it is extremely easy to configure and add accessories.

It is the only solution that allows shelves (medium-sized items), steel decking (large items) and drawers (small items) to all be used in the same system.

OPEN SHELVING

CLOSED SHELVING

MINI-RACKING

Mini-Racking is designed for storing large and heavy parts. With a wide choice of dimensions (W" \times D" \times H") and decking, you can configure the units to fully meet your specific requirements

STERILIZATION DEPARTMENTS

Rousseau storage systems are ideal for meeting the stringent hygiene and cleanliness requirements of your department. Our modular cabinets, together with the wide range of accessories you can add, keep your supplies and equipment in the right place and safe from contamination. And with multiple drawer dimensions and layouts available, you can customize your very own storage solution.

Our workstation systems also meet the need for an organized and ergonomic work environment. By choosing what you need from the many options available, such as a stainless steel top and storage above the work surface with Rousseau's multi-purpose frame, you benefit from a unique solution tailored to your sterilization process department.

STERILE EQUIPMENT SUPPLY DEPARTMENTS

Rousseau storage solutions are an ideal choice for your sterile equipment supply department. Because many items essential to patient care are stored in your department, our storage solutions have been designed so that you can find and retrieve what you need quickly and easily.

We know that available space is often at a premium, which is why we recommend our shelving with drawers. Up to 70% of your

floor space can be reclaimed with this system. Rousseau's Spider® Shelving System boasts many accessories and features that help to optimize the efficiency of your sterile equipment supply department

MULTITEK CARTS

The MultiTek Cart provides an ergonomic way to transport and handle items and tools of different sizes. Lightweight and highly durable, it comes with a wide range of configurations and accessories to suit the unique needs of each work activity.

With a maximum load capacity of 600lb. and unrivaled versatility, it is the ideal companion to help you perform your daily tasks.

Because your department is responsible for repairing medical equipment for the entire healthcare facility, it is vital that you always have what you need on hand. With both very small and huge equipment to repair, you need a well-organized workspace and quick access to tools. Rousseau workstations offer all the benefits of a modular system.

Our modular cabinets are also essential for optimal organization of your department. A stationary cabinet ensures all your tools

are always stored in the right place. And mobile cabinets are indispensable when you need to transport your tools to equipment that is too large to be moved. With all these options, you can create a custom solution for your department's unique needs.

Over the years, Rousseau has developed many different storage solutions to meet the standards of the 5S methodology. The aim of this Japanese technique is to continuously improve the work environment. It is designed to achieve better organization and an efficient work environment by ensuring each tool is in the right place, easy to find and well identified.

Furthermore, the storage solutions we offer help you to improve work conditions and morale for employees by reducing the time and energy they spend on unproductive tasks.

## WALL-MOUNTED PANEL SYSTEM

Rousseau's 5S multi-purpose panel system can be used to store a broad range of items of different sizes, shapes and weights on a single surface.
